

## June

Come april, may, we're growing older  
won't you make me stay

junes where I belong, this guns for hire  
the guns my song

years they come & go, days are happy  
the nights so slow

build & build again, we were younger  
we were happy then

my song has gone away but I'll be meeting her some day  
my song has gone to saty but I'll be meeting her one day

words got in the way, the sound is silent  
it's locked away

junes where I belong, the guns were tired  
guess I was wrong

my song has gone away but I'll be meeting her some day  
my song has gone to saty but I'll be meeting her one day

## **They All Laughed Along**

Oh....I've been down for a while and the world laughed along

Why....I've been down for a while guess we don't really know

But if I'd have to go away with you

I wouldn't be that scared 'cause it's all through

Oh....I've been down for a while and the world laughed along

But if I'd have to go away with you

I wouldn't be that scared 'cause it's all through

It's all there to make you smile when you are down just wait a while and...

I've been down for a while why we don't really know

It's all there to make you smile when you are down just wait a while and...

But if I'd have to go away with you

I wouldn't be that scared 'cause it's all through

Gods & goblins got the best of us

touching you just never seems enough

But if I'd have to go away with you

I wouldn't be that scared 'cause it's all through

If you want to cry then that's ok

I've got your back & that's where I will stay

## **Hopeless Way To Feel**

I can't play guitar, though I've tried to raise the bar,  
I'm sinking, drowning, slipping further away,  
But I'm sticking to it no matter what they say,  
Not a wholesome way to be,  
Not the plan I had for me,  
I've got to figure these things out,  
Help me find my way through the night,  
Get in tune...

So let's think it over,  
Guess that's enough to say good bye,  
Let's think things over,  
At least I try...

Sometimes we have our moments,  
Sometimes we need to play our part,  
And - I really mean those moments,  
Cause they help maintain and mend our broken hearts,  
What a hopeless way to feel,  
I have to hurt myself to deal,  
I'll let go, you take the wheel,  
Steer me clear of all the frightening things my lonesome brings,  
Get in tune...

So let's think it over,  
Guess that's enough to say good bye,  
Let's think things over,  
At least I try...

Sometimes we all fall apart,  
And this time it's me,  
But I know that someday baby,  
You'll start to see...

So let's think it over,  
Guess that's enough to say good bye,  
Let's think things over,  
At least I tried...

## **Tangle To Unwind**

dreams do come true like every night  
why argue when the lazy eye is right  
you stole a thought right from my mind  
we were born to hate all of mankind

but I feel, I feel - love is real

why go out into the night & re-live this alone  
why won't you come back with me, we'll cast the first stone  
don't do it alone

words spread the sounds like everyday  
don't care to share any words they say  
you'll find a tangle to unwind  
'cause we were born to hate all of mankind

but I feel, I feel - love is real

why go out into the night & re-live this alone  
why won't you come back with me, we'll cast the first stone  
don't do it alone

## **Since I**

I'm smiling but I'd rather be with you now

I'm smiling at the top of my lungs

I'm smiling but I'd rather be with you now

I'm smiling at the top of my lungs

since I saw you I knew we'd kick it, since I fell through

since I met you I knew we'd shake it, all the lies in my head are for you

I'm shaving but I wish I had a beard now

I'm saving up to get us out of here

We never knew that life could be so hazy

I'm saving up to get us out of here

since I saw you I knew we'd kick it, since I fell through

since I met you I knew we'd shake it, all the lies in my head are for you

I'm smiling but I'd rather be with you now I'm smiling at the top of my lungs

I'm smiling but I'd rather be with you now I'm smiling at the top of my lungs

since I saw you I knew we'd kick it, since I fell through

since I met you I knew we'd shake it, all the lies in my head are for you

## **In A Month Or Two**

Oh, we have to stay together,  
And suck each other dry forever,  
It wasn't long ago,  
You said that you weren't sure,  
Just what your feelings in a month or two could be...

I can't go on without you no more,  
I'll hang my head and sulk at the floor,  
We have to patch things up again...

All this could end whenever,  
A life with you wherever,  
I know I can endure,  
But than again you weren't sure,  
Just how perfect life would be with me...

I can't go on without you no more,  
I'll hang my head and sulk at the floor,  
We have to patch things up again,  
- But we're still standing; we are still standing Madeleine...

I know an end will come,  
But please don't run...

I can't go on without you no more,  
I'll hang my head and sulk at the floor,  
We have to patch things up again,  
- But we're still standing; we are still standing,  
- We're still standing; but we are still standing Madeleine...

## **Best of times**

there's a bad part of town, it's an old part of town  
making space for the day they're set free

celebrated by them who have not seen the end  
it is close but then why would they care

the lonely hearts will have the best of times  
dancing free not stuck in any lines  
the lonely hearts can come and & go they'll see  
with a little luck it's never you and me

in this gold part of town, stuck on top there's a crown  
to be worn by the saddest of folks

put there by them who have not seen the end  
it is close but then why should they care

the lonely hearts will have the best of times  
dancing free not stuck in any lines  
the lonely hearts can come and & go they'll see  
with a little luck it's never you and me

you & me, me & you

## **So Feel Good**

Back in the day when we ran with our shoes off,  
Seems like a dream now

Riding our bikes through the jungles & cities,  
Much like today, much like today

I feel so, so feel good, when I am - when I'm with you (ooh-ooh-ooh)  
It feels so, so feel good, to find out - you feel it to (ooh-ooh-ooh)

You scraped your knee & I helped you to clean it,  
Seems like a dream now

We called your mother she drove us insane,  
Much like today

Silence is golden but not for your brother,  
I guess he meant well, I know he meant well

I feel so, so feel good, when I am - when I'm with you (ooh-ooh-ooh)  
It feels so, so feel good, to find out - you feel it to (ooh-ooh-ooh)

I feel so, so feel good, when I am - when I'm with you (ooh-ooh-ooh)  
It feels so, so feel good, to find out - you feel it to (ooh-ooh-ooh)

**Sweet One**

Since that minute, our meeting of chance  
The moment, the moments - we could go for miles & miles

Come on sweet one, stay here sweet one

Like you, like me we're one big surprise  
Winter is waiting but we can go for miles & miles

Come on sweet one, stay here sweet one

When winter is over we're weathered & older,  
I'll make sense then I'm sure (make sense then I'm sure)

Come on sweet one, stay here sweet one

## **Youweshe**

you've got nothing there  
you've got nothing we can't take - take

we've got nothing there  
we've got nothing they can't take - take

we've got nothing there  
we've got nothing they can't take - take

(it took a while to get the blocks out from under your door,  
another hour figuring out what they're for)

you've got nothing there  
you've got nothing we can't take - take

she's got something there  
she's got something we can't take - take

she's got something there  
she's got something we can't take - take

(out in the yard we buried all your favourite desperate things,  
I stole a box from there we'll see what luck it brings)

## **Ever So Slight**

I'm gonna blow the horn as though I've never been born

I'm gonna say let go just like a woman scorned

so don't you let them talk about me when I'm gone

I'm gonna fly right by just like an open freight train

they're gonna wave a sign saying that I'm insane

but don't you let them smile about me when I'm gone

I've been taught to stand and I've been taught to sit

I'm gonna march right down and tell them this is it

so don't you let them laugh about me when I'm gone

I'm gonna get my thrills however so slight

I'm gonna get my thrills so if it takes me all night

but don't don't you let them talk about me when I'm gone

so please don't let them cry about me when I'm gone

## **Gold mine**

I'm sure it's just a gold mine, the place from where your from  
I'd like to get inside there, see the wonders that you've done

The world will never notice, just how wonderful you are  
I could shout it from a roof top, I could throw it from a car

But I got sensible then, tore the heart out from my favourite friend

I'm sure you never realized, the quarks were followed by my eye  
They tried to get away some, but I would feast on every try

But I got sensible then, tore the heart out from my favourite friend

I'm stuck inside this gold mine, we could stay here for all time  
The tastes they are so simple, with the dreaming & the wine

But I got sensible then, tore the heart out from my favourite friend  
We got sensible then, killed the dream & left it in the end

I'm sure it's just a gold mine
