

Cancer

Carmen's really shaking, down town last night
everybody's faking, I guess we're feeling alright

So you don't even have to answer
why all the little kids are playing everyday despite their cancer

they're so unique, in the middle of my sleep
they could never complain, because we've earned our keep

So you don't even have to answer
why all the little kids are playing everyday despite their cancer

we should try to be like all of them
talking to the late show, I'm gonna call my friends
we could never calm down until we've passed the end
wait a minute baby hold that thought

Personal Elvis

I'm gonna give me just one more chance
I'm a regular hard on and I'm looking for romance
I could be your personal elvis
running up and down that human shrine
Your twinkling perfect parts

I know what's on your mind go ahead and touch me 'cause I'm just fine
and I know that I'm like han if you want I'll change my name to sherikan
'cause with leia it's always wrong

My observations about to make me sick
I'm getting caught in the back draft and I'm never ever gonna be picked
I could be your personal elvis
I could shrink my ears and all my musical fears we could celebrate our spite

I know what's on your mind go ahead and touch me 'cause I'm just fine
and I know that I'm like han if you want I'll change my name to sherikan
'cause with leia it's always wrong

Sunny side above I want to know why, I want to know why
I am fine tonight for you won't you be mine tonight won't you be mine tonight

I know what's on your mind go ahead and touch me 'cause I'm just fine
and I know that I'm like han if you want I'll change my name to sherikan
'cause with leia it's always wrong

Crack Berry

Sitting on the sideline, waiting for the ship wreck to come
Waiting for a mile on a lullaby
We don't care what they're saying all about us
It ain't fair, we never really cared about the fuss

Sitting on the sideline, waiting for the ship wreck to come
Cash in on your smile, it's paved the way for you
We don't care what they're saying all about us
I guess it's fair, it's time to get onboard the nowhere bus

Don't give it up
Make your mistakes
Don't give it up
Don't take a break from me

Home made phone

I remember back one time when I was about six
Used to dream about you letting me inside your fix
And the time when I was ten you'd tempt to shake my world
Now you're standing here and I'm hanging on your every word

don't waste your time on me tonight

I remember you and me both humming sweet sixteen
Used to dream about you lovely lying in my bed
All those thoughts they still remain deep down inside my head
Now it's finally here the moment that I've longed to dread

don't waste your time on me tonight

When I call you on my home made phone
If you pick please tell me to leave you alone
If I call you on my home made phone
When you pick up please tell me to leave you alone

Please waste your time on me tonight

To die for

i can't resist to believe in things that i haven't even seen yet,
you came along and you showed me all the lovely things that over throw me,
you, it's all you

once i was through i was shaking now i'm living large and i'm making,
anyone who doubts they're mistaken it's gonna take a while until i'm
breaking you, it's all you

i am lonely, there's nothing left to die for, there's nothing left to lie for
it's been lovely but there's nothing left to die for, there's nothing left to lie for

suns out but i'm getting colder funny but i'm stable as a loner,
you took a step you're getting closer all my darkest thoughts over my
shoulder, you, it's all you, it's all you, it's all you

i am lonely, there's nothing left to die for, there's nothing left to lie for
it's been lovely but there's nothing left to die for, there's nothing left to lie for

Peace Pipe

The butchers daughter's gonna get it tonight,
All of the wise men lined up to fight

We've been locked in the sun 'cause you want it,
We should try to get along, get along

Evolutions got us hungry for more,
Thought about eating you at least twice before

We've been locked in the sun 'cause you want it,
We should try to get along, get along

We try to get along, we try to get along, we try to get along

Come down, find out

Talking to you late last night
I know your hair looked a fright
And it will never come down, calm down
Why do you say what you say
I know that I'm a poor lay
but you will never find out, find out

now that I am more than her man I'm gone
we've been talking, dreaming, walking out of my mind diving

why would I ever decide
rolling with you in the tide

because we would never get there, get there
leave while you still have the chance
life isn't always romance
when lazy rides his big wheel, there's really nothing to it

now that I am more than her man I'm gone
we've been talking, dreaming, walking out of my mind diving

Talking to you late last night
I know your hair looked a fright
And it will never come down, calm down
Why do you say what you say
I know that I'm a poor lay
but you will never find out, find out

All of this shits in your head

No calls

There ain't no calls this evening
There ain't no calls tonight
Clive is on his high horse
He's looking for the light

No we we don't believe what we've been fed
They're making bad decisions over my head
They don't understand the smiles on me and all of my friends
It's all about clive

There ain't no calls this evening
There ain't no calls tonight
We're heading for the south land
We'll hang ourselves tonight

No we we don't believe what we've been fed
We just want to play until we're dead
They don't understand the smiles on me and all of my friends
We just want to play down and dirty and fight with feelings until the end
It's all about clive

Million dollars

i'm not like all the other guys i'm not gonna try to get you high
in the back of the car, in the back of the car
i've got a million different schemes but i'm not gonna toy with all your
dreams in the back of the car, in the back of the car

because we're both the same

got a million dollars in my car i'm gonna take you out tonight,
got a million dollars in my car i'm gonna put up a huge fight,
always knew you were the one for me, the one for all to see
every time you get into my ride babe i'm your guarantee

i'm not like all the other guys i'd never give up on first tries
in the back of the car, in the back of the car
i made a brilliant cool advance i'd like to get inside your pants

because we're both the same

got a million dollars in my car i'm gonna take you out tonight,
got a million dollars in my car i'm gonna put up a huge fight,
always knew you were the one for me, the one for all to see
i've got ten bucks i've got my mommys car i'm gonna take you out tonight

we're gonna drive down the boulevard in your mommys car
hey, hang on a minute it's my mommys car

i'm not like all the other guys i'm not gonna try to get you high
in the back of the car, in the back of the car
why won't you take me while you can i guess i'll never understand
or reprimand showing you the man that i am

The world

Sold me a stack of
It's not coming back love
It's heading out just like a bat out of hell
All of your saviours they're just simple and swell
But would you ask your friends to go to see the show
I'm thinking no, no, no

Riddle me this because I'd like to see
The multiple kid who's brain is tired and free
Vacation is up and we're allowed to die
We soak in the sun it's where the healthy ones fry

If I told the world I'm here right now
Would it make a difference in their minds somehow
If I told you how I feel right now

Would that make a difference in your mind

It's been done for centuries
Sure I know you want to stick with me
I tried to ask your friends to go

If I told the world I'm here right now
Would it make a difference in their minds somehow
If I told you how I feel right now
Would that make a difference in your mind

You, me & this while

Making bad excuses for the livings we lead
Chopping off your fingers for a neighbour in need
Twilight zones are simple if you have the degree
it's the life that we've aspired
Tinkerbell it's a living hell
I just want to make you feel real well
our castles coffee and the diners wine
it's the life that we've aspired now

Now that I'm gone you could be the one

Thinking about the donkeys and the dixies in heat
Lovers always follow on the lightest of feet
Slip into your wonder won't you where that dress
it's the life that we've aspired now

Now that I'm gone you could be the one

on and on it's in your head and you don't know what for
I'm hanging on the telephone it's you that I adore
The hour's up guess we're out of luck your smiles a dim vacation
Stuck inside your mind all night trying to figure out just why
