

## **Be Asleep**

Hush now child, sweet angel

Stars are out, smile - smile

Days gone by, close those eyes - a little while

Hush now child, sweet angel

Roll on by, clouds - clouds

Hours gone by, rest those eyes - a little while

Sleep so sound, sweet angel

Morning comes, play - play

Weeks gone by, sleep please try - a little while

## **Bee Hive**

this place is a bee hive through & through  
the queen is at war & so are you

they'll never find me lost at sea  
the engine is dead I am (free)

you've got allot of love want to break it  
you've got a little sense I want to shake it  
you've got allot of nerve I want to fake it  
you've got a simple test I want to take it

the world is a bee hive & you've been stung  
a natural drive by 101  
they'll never find us lost at sea  
the engine is dead & we are (free)

you've got allot of love want to break it  
you've got a little sense I want to shake it  
you've got allot of nerve I want to fake it  
you've got a simple test I want to take it

it's not what you got but what you paid  
the return is gone it's flown away  
they'll never find you out at sea  
the phone line is dead & you are (free)

## Final Day

Why didn't you call from that bathroom floor  
why didn't you call before you shut the door  
why didn't you crawl out from that nightclub floor  
why didn't you fall out through those slamming doors

Why didn't you leave before you went away  
why didn't you breath when you were lead a stray  
it's a all a dream but it don't feel that way  
I can't believe the price I had to pay

Our final day, our final day

Every night, every night  
Every night

Why didn't you pass out in that taxi cab  
why didn't you last the way I hoped you'd last  
I can't be real 'cause it don't feel that way  
I won't believe that was our final day

Our final day, our final day

Every night, every night  
Every night

## **Long As Can Be**

If the fire flies then I'll fly,  
when the judges judge then I'm judged  
when the hand is dealt then I'll deal  
when my skin is felt then I'll feel

Stand strong be what you be  
they've got nothing on me  
form lines long as can be  
safety is certain if you stay here with me

When my hand is shook then I'll shake  
when the goings gone then I'm gone  
if the limb is cut guess I'll fall  
when my breath is caught I won't stall

Stand strong be what you be  
they've got nothing on me  
form lines long as can be  
safety is certain if you stay here with me  
form lines long as can be

## **Meet me in the stars**

it's a sign, the sign of every sign  
we're alive, this time

it's ok, dry those crying eyes  
you're alive, this time

but when you go, meet me in the stars (never gonna let  
you go) when you go, meet me in the spot where you  
found me long ago (never gonna let you go) meet me in  
the stars (I'm never gonna let you go) meet me in the stars

I know I'm safe, floating in space  
'cause I'll have your grace all around me

so when you go, meet me in the stars  
(never gonna let you go)

when you go, meet me in the spot where you found me  
long ago (never gonna let you go) meet me in the stars (I'm  
never gonna let you go) meet me in the stars

so when you go, meet me in the stars (never gonna let you  
go) when you go, meet me in the spot where you found me  
long ago (never gonna let you go) meet me in the stars  
(I'm never gonna let you go) meet me in the stars

## **Much to young**

theres a beat on the street deciphering hands, splitting feet  
it's kept me up all night

theres a town, theres a girl, theres a swivel, theres a swirl  
it's not a bad, bad thing

We all just felt the sun creeping in, we saw the fun leaking  
in it's kept us up all night - ***up all night***

making peace with an agitated bliss seems to much for us  
to miss

I will never go there unless you make me stay away  
I will never leave here unless you make me stay away  
I believe in all the lovely things out from your mouth

theres a beat on the street saying I'm found and that I'm  
round you've all been up all night - ***up all night***

you keep my fire awake it's never taking a break that's not  
a bad, bad thing

unless you put it out with a song that can't be sung through  
the hills that sound has rung - ***since we were oh so  
young dear***

they'll buy your silence for gold and let the novice en-role  
it's just to good

I will never go there unless you make me stay away  
I will never leave here unless you make me stay away  
I believe in all the lovely things out from your mouth

theres that beat on the street deciphering hands, tapping  
feet it's kept us up all night - ***`cause we were much to  
young dear***

theres that town, theres that girl, theres that swivel and  
that swirl it's not a bad, bad thing - ***unless your much to  
young dear***

Theres that sun creeping in we're seeing fun leaking in  
it's kept us up all night - ***yes we were much to young  
dear***

making peace with the agitated bliss seems to much for us  
to miss

I will never go there unless you make me stay away  
I will never leave here unless you make me stay away  
I believe in all the lovely things out from your mouth

## **Ol'Seminole**

if you feel that you've been wronged  
then take those memories, take those songs  
lock them far away from me now send them off  
& leave them be

on Ol'Seminole where the dandelions grow  
we'd toss & take turns, that was where we'd learn

we were eight & scared of parents dreamed of sacred  
disappearance, we would hide on clouds & moonlight save  
the day, save the night

on Ol'Seminole where the dandelions grow  
we'd toss & take turns, that was where we'd learn

keep them off, keep them out  
keep them off, keep them out

of Ol'Seminole where the dandelions grow  
we'd toss & take turns, that was where we'd learn

## **Smile of your own**

Jigs up, you robbed me blind & now you're gone  
so now I'm stuck here singing songs on my own  
you're on the road & I am home

'cause you've got a smile of your own now  
that's why you treat me this way  
you've got a smile of your own now  
that's why you treat me this way

Please me, is what you said but I got old  
& what is worse that I'm feeling it to  
my tapping days have come & gone

'cause you've got a smile of your own now  
that's why you treat me this way  
you've got a smile of your own now  
that's why you treat me this way

you've got some spite of your own now  
that's why you treat me this way  
you've got a smile of your own now  
that's why you treat me this way

## **SOME TIME**

You've got a mouth that I'd like to perch on  
but I'm a pinned down breed

You make a sound that I'd like to mimic  
but it's not quite my key

You've got a smell that I'd like to smell like  
but I'll just stick with mine

If you should wash off the scent of last summer  
I guess I'll go back alone

I'm not falling to pieces just yet, give me some time  
I don't have all the pieces just yet, give me some time

## **West is the best**

you got it fair, you got it square  
so I'll be your father & never be there

enjoy what's in store, pipe dreams galore  
I'll be your father but not that much more

but if you go west, the west is the best  
you've got to ace with what you got &  
embrace what was thrown in your face

serve up those smiles, stay for a while  
I'll be your centuries & fill up with vile

so certainly safe, a day way to late  
but now it's upon us & we feel the wait

but if you go west, the west is the best  
you've got to ace with what you got &  
embrace what was thrown in your face

but the ball lost it's chain, the highways sustain  
I'll be your future & open my lane

you got it bad, the feelings so sad  
so I'll make it better the best that I can

## Road Song

top of the morning to you, top of the morning to you  
every time I see your face, it takes me to a place  
where I hear a love song, cause I'm addicted to your smile,  
but it makes it all worth while

top of the morning to you, top of the morning to you,  
if a stranger takes my place, stealing your embrace,  
then I fear another thing coming, you'll finally get what you  
deserve, all the love that you're worth

But I miss you so, on the open road

top of the morning to you, top of the morning to you,  
as the road keeps winding on, I'll keep on singing this  
song, to prevent these tears from falling, cursed cause of  
what I do, a curse that's lifted around you

But I miss you so, on the open road

But I miss you so, on the open road
